

COMPREHENSIVE GENDER CARE

AN INTEGRATED APPROACH TO GENDER CARE

University of Minnesota Health Comprehensive Gender Care specializes in compassionate and coordinated care for transgender and gender non-binary patients, wherever you are in your transition. You will meet with highly skilled staff and care coordinators who will help you explore options and answer any questions you may have.

Discover Our Difference

Using a coordinated approach, our team of providers have extensive training and experience in a variety of specialties including primary care, mental health, sexual health, plastic surgery, urology, gynecology, reproductive endocrinology, and speech-language pathology. We are also the only healthcare system in the metro area to offer genital surgeries to transgender patients.

Our dedicated care coordinator understands the community and will be your point of contact and advocate throughout your transition. He has knowledge of transgender issues, sexuality, societal expectations and medical institutions to help your care team deliver a positive experience, tailored to your needs.

Specialties and Services

Comprehensive Gender Care offers a full continuum of services including:
