Some Good Transgender Websites

www.transgender.org

Transgender Forum's online community center. Links to many national groups from all parts of the transgender community and all parts of the U.S.

www.makezine.org/events.html

Trans site of Dean Spade, activist, lawyer and founder of the Sylvia Rivera Law Project. Great list of links.

www.amboyz.org

National organization for people on the FTM spectrum; site has links to other organizations and resources. Leans a little bit toward transgendered/genderqueer.

www.transfeminism.org

Emi Koyama and Diana Courvant's website to facilitate communication between intersex and trans people who are feminists and their allies.

www.annelawrence.com/twr

Transsexual women's resources, with a focus on medical and health resources.

www.ftmi.org

National organization for people on the FTM spectrum; site has links to other organizations and resources. Leans a little bit toward transsexual/identifying as men.

www.gendertalk.com

Weekly radio program available online that talks about transgender in the first person. Presents news, information, and new voices that challenge the traditional view of gender.

www.tgcrossroads.org

A website for connecting transgender people and organizations in the Midwest. Includes news, reviews, a calendar, and links.

www.gender.org

National organization focused on the needs, issues and concerns of gender variant people in human society. Focused more on MTF than FTM, but not exclusively.

www.isna.orq

Intersex Society of North America, organization devoted to systemic change to end shame, secrecy, and unwanted genital surgeries for people born with an anatomy that someone decided is not standard for male or female.

www.trans-health.com

Online magazine with articles, columns and resources for all aspects of transgender health—transition-related and not—for all vectors/flavors of transpeople.

www.transgendercare.com

Medical/surgical transition information for MTF individuals.

www.thetransitionalmale.com

Medical/surgical transition information for FTM individuals.
